

Desain User Experience (UX)

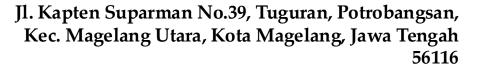

OVERVIEW USER PERSONA & DESIGN THINKING

Dosen pengampu:

Restu Rakhmawati, S.Kom., M.Kom.

PRODI TEKNOLOGI INFORMASI JURUSAN TEKNIK ELEKTRO, MEKATRONIKA, DAN INFORMASI FAKULTAS TEKNIK UNIVERSITAS TIDAR

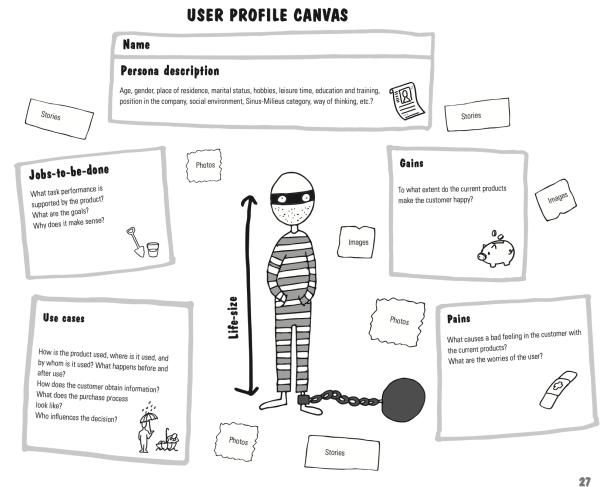

Pokok Bahasan

- User persona
- Design Thinking

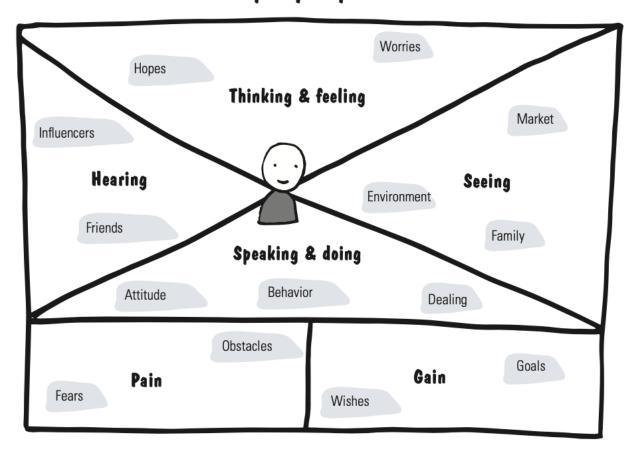

USER PERSONA

EMPATHY MAP

Empathy map

- Cari pengguna potensial (user potential) yang
 nyata
- Identifikasi kebutuhannya berdasarkan empathy map
- Cara ini dapat digunakan untuk membangun empati dengan calon pengguna

JOBS TO BE DONE FRAMEWORK

Jobs-to-be-done, digital

When

I take a photograph with the digital camera

want to

be able to edit it in such a way that it looks like it's been taken by a professional photographer

so I can

show perfect pictures

When

I take a photograph with my cell phone

want to

be able to edit it in an easy and simple manner

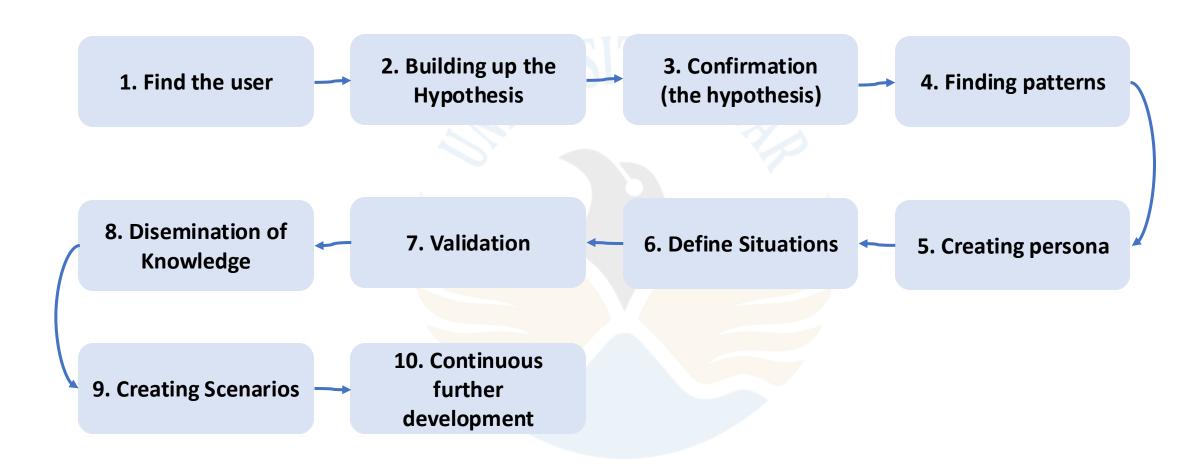

so I can

share it quickly with my friends

- Jobs-to-be-done framework dapat membantu untuk menentukan fungsi utama dari sebuah teknologi yang benar-benar dibutuhkan oleh pengguna
- Dengan mengetahui hal tersebut dapat meningkatkan penerimaan pengguna dan kepuasan pengguna terhadap teknologi

How to Develop Persona

Design Thinking Process

DESIGN THINKING

ancitie .

Design thinking is a human-centered approach to innovation that draws from the designer's toolkit to integrate the needs of people, the possibilities of technology, and the requirements for business success

Tim Brown - IDEO

DESIGN THINKING

The Five Design Thinking Steps

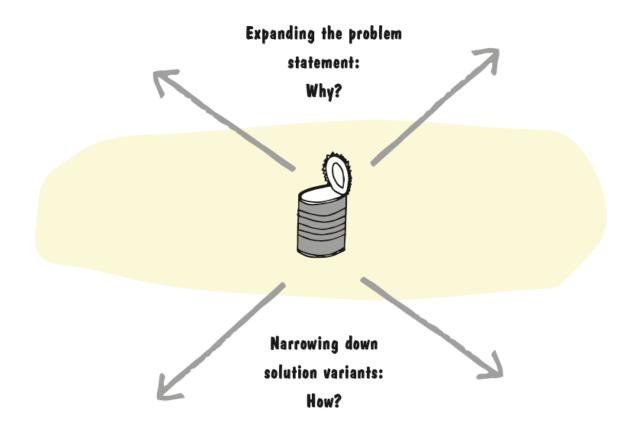

EMPATHIZE

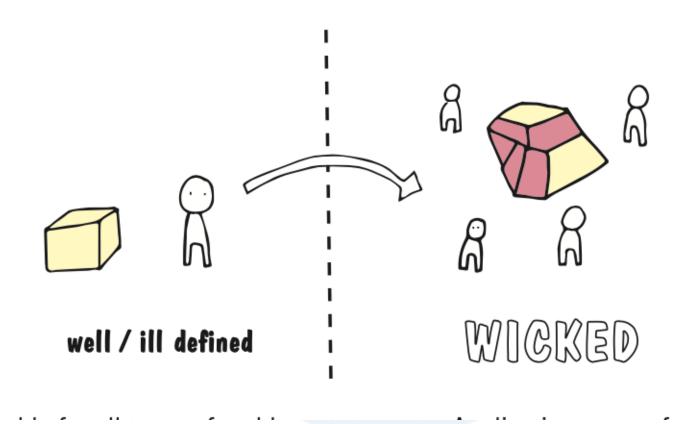

How can the love and passion for a product win over the users?

DEFINE

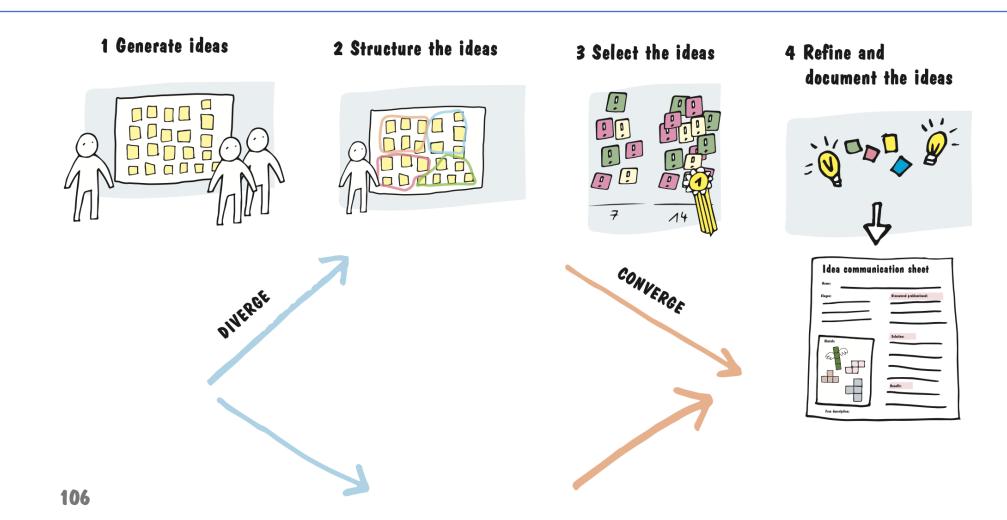

DEFINE

DEFINE

IDEATE

PROTOTYPE

First principle:

PROTOTYPE

or DATIPAR.

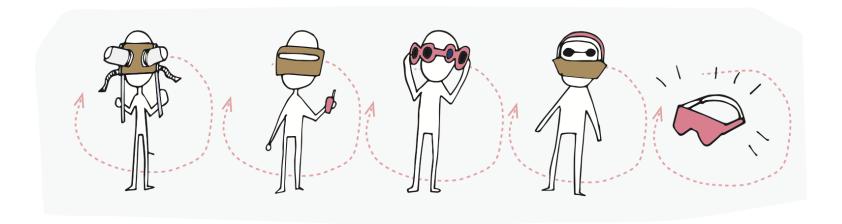

In prototyping, a second principle applies:

Never fall in love with your prototype!

PROTOTYPE

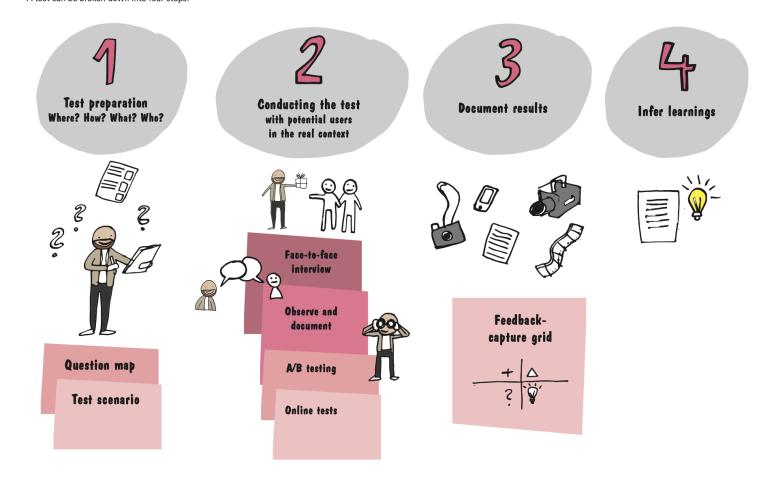

Thus we come to the **third principle** of prototyping:

It's a never-ending story: Prototyping means to iterate, iterate, and iterate still again.

TEST

A test can be broken down into four steps:

TEST: A/B TESTING

- A/B testing merupakan strategi marketing test untuk membandingkan dua konten yang lebih diminati pelanggan
- Metode ini kemudian diadopsi oleh design thinking untuk membandingkan dua prototype
- A/B testing dapat dilakukan dengan media online maupun offline
